Note: Hong Kong Financial Reporting Standards ("HKFRS") do not permit leasehold land other than investment properties to be carried at valuation. The Group considers that such treatment does not reflect the economic substance of its hotel property investments. Therefore the Group has presented supplementary unaudited financial information taking into account the fair market value of hotel properties in addition to those in accordance with HKFRS.

The hotel properties in Hong Kong and Canada were revalued by Knight Frank and Grant Thornton Management Consultants respectively, independent professional valuers, on an open market value basis as at 30th September 2005.

Management Discussion and Analysis

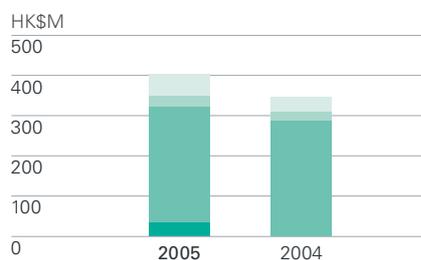

Canaryside, Lei Yue Mun

Properties sales and development

Presale consent of the 190,000 sq. ft. gross floor area sea-view residential development in Kowloon facing Lei Yue Mun, was issued last month. The project will be launched for sale in early 2006. The entire project will bring in a total proceeds of about HK\$1 billion. The development is now at superstructure stage of construction and expect to be completed by the end of 2006. Presale consent is also being applied for another low-rise residential development of 43,000 sq. ft. gross floor area alongside the light rail in Ping Shan, New Territories. Superstructure construction has commenced and completion is expected towards late 2006.

Results

The Group recorded a profit attributable to shareholders of HK\$52 million, compared to last period's HK\$148 million (restated). Turnover for the current period amounted to HK\$403 million, an increase of 15% from HK\$350 million of last period.

The Directors do not recommend any interim dividend.

Profit attributable to shareholders

Empire Hotel Hong Kong

The joint venture residential development with the Grosvenor group at Castle Peak Road in Ting Kau is also progressing. Land exchange has been applied and preliminary lease terms accepted. Building plans are being designed and formulated.

Land exchange and premium negotiation is also being conducted for sites at Aberdeen, Hung Shui Kiu and Lam Tei. In aggregate, the Group has over 1.1 million sq. ft. gross floor area of properties under development.

Leasing

Rental income attributed to the Group for the period was approximately HK\$27 million, an 8% increment from the corresponding period last year. Pick up in both occupancies and unit rate contribute to the overall increase.

At present, the Group has about 440,000 sq. ft. office and retail portfolio. About 16% of the tenancies are due to renewal in the remaining financial year. We expect that the renewal will continue to bring up the rental income.

Hotel

The hotel subsidiary achieved a HK\$290 million turnover and operating profit of HK\$26.2 million compared with HK\$287 million turnover and HK\$15.5 million operating profit last period.

Revenue from hotel operation increased by 14% to HK\$131 million. Combined occupancies of the two Hong Kong based hotels is slightly higher by 1% compared with last corresponding period, while room rate increased by 14%. Over 80% of guest rooms in Empire Hotel, Hong Kong has been renovated and well received by its customers. Our Canadian hotel's revenue also increased by 14%.

In November 2005, the listed hotel subsidiary raised approximately HK\$192.7 million net proceeds through the placement of new shares to market. The proceeds were all used to repay bank borrowings. The Group's shareholdings reduces to 56.9% thereafter.

Management Discussion and Analysis

Financial review

At 30th September 2005, the Group's total assets stood at HK\$6.7 billion (31st March 2005 restated: HK\$6.7 billion), and the net assets amounted to HK\$3.7 billion (31st March 2005 restated: HK\$3.7 billion). The Group adopted the new and revised financial reporting and accounting standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") which are effective for this 2005/06 financial year. The changes have no impact on the Group's cash flows, but increase the profit by HK\$88 million and decrease net assets by HK\$1,385 million.

The net borrowing was HK\$2.2 billion (31st March 2005: HK\$2.3 billion) of which HK\$1.1 billion (31st March 2005: HK\$1.2 billion) belonged to the separately listed hotel group. Net debt to equity ratio (including minority interests) was 60% (31st March 2005 restated: 61%). The ratios would be 46% and 48% respectively as adjusted with hotel properties at valuations.

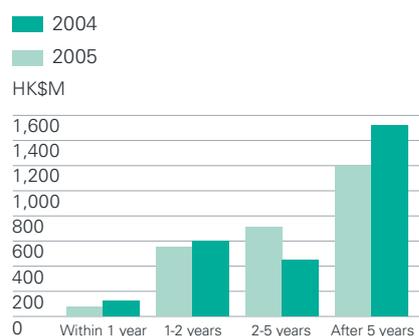

Except for the Canadian dollar loan of Empire Landmark Hotel, all our Group's borrowings are denominated in Hong Kong dollar. Of the total borrowings, 5.7% were repayable

within one year and repayment of the remaining portion is spread over eleven years.

Apart from the convertible bonds, all the debts were at floating rates. Hong Kong has entered into an interest rate hike cycle, following the United States. One month HIBOR increased from approximate 2.5% p.a. at beginning of the interim period to 4.2% p.a. at end of the period, compared with 0.08% and 1% for last corresponding period. Finance costs increased by 23% comparing the two periods. To alleviate further rise in interest charge, the Group has entered into interest rate swaps ("IRS") and by 30th September 2005, there is outstanding HK\$265 million IRS spreading between 3-5 years. A further HK\$360 million IRS was entered into after the period end, in aggregate hedging about 33% of the Group's floating rate net borrowings.

As at 30th September 2005, assets with an aggregated net book value of HK\$5,395 million (31st March 2005 restated: HK\$5,300 million) were pledged to secure banking facilities of the Group. The guarantees provided to financial institutions for jointly controlled entities, associated companies and third parties was HK\$167 million (31st March 2005: HK\$159 million).

Debts maturity profile

Employees and remuneration policies

As at 30th September 2005, the Group employed 430 employees and approximate 90% worked for the separately listed hotel subgroup. The remuneration packages including basic salary, annual bonus, retirement and other benefit are commensurate with their job nature and experience level.

Independent Review Report of the Auditors

To the Board of Directors of Asia Standard International Group Limited

(incorporated in Bermuda with limited liability)

Introduction

We have been instructed by the Company to review the interim financial information set out on pages 6 to 27.

Respective responsibilities of Directors and auditors

The Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited require the preparation of an interim financial information to be in compliance with Hong Kong Accounting Standard 34 "Interim financial reporting" issued by the Hong Kong Institute of Certified Public Accountants and the relevant provisions thereof. The interim financial information is the responsibility of, and has been approved by, the Directors.

It is our responsibility to form an independent conclusion, based on our review, on the interim financial information and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Review work performed

We conducted our review in accordance with Statement of Auditing Standards 700 "Engagements to review interim financial reports" issued by the Hong Kong Institute of Certified Public Accountants. A review consists principally of making enquiries of management and applying analytical procedures to the interim financial information and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the interim financial information.

Review conclusion

On the basis of our review which does not constitute an audit, we are not aware of any material modifications that should be made to the interim financial information for the six months ended 30th September 2005.

Notes to the Interim Consolidated Accounts

1 Basis of preparation

The unaudited consolidated financial information has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants.

The accounting policies and methods of computation used in the preparation of this consolidated financial information are consistent with those used in the annual financial statements for the year ended 31st March 2005 except that the Group has changed certain of its accounting policies following its adoption of new/revised Hong Kong Financial Reporting Standards (“HKFRS”) and HKAS which are effective for accounting periods commencing on or after 1st January 2005 as described in note 2 below. A summary of effects of the changes in accounting policies between the Statements of Standard Accounting Practices in effect until 31st December 2004 (the “Old Hong Kong Accounting Standards”) and the new HKFRS which has been applied in the financial statements for the six months ended 30th September 2005 is set out in note 3.

2 Changes in accounting policies

Commencing from 1st April 2005, the Group adopted the new/revised standards of HKFRS set out below, which are relevant to its operations. The comparatives have been amended as required, in accordance with the relevant provisions of these new/revised standards.

HKAS 1	Presentation of Financial Statements
HKAS 16	Property, Plant and Equipment
HKAS 17	Leases
HKAS 32	Financial Instruments: Disclosures and Presentation
HKAS 36	Impairment of Assets
HKAS 38	Intangible Assets
HKAS 39	Financial Instruments: Recognition and Measurement
HKAS 40	Investment Property
HKAS-Int 21	Income Taxes – Recovery of Revalued Non-Depreciable Assets
HKFRS 2	Share-based Payments
HKFRS 3	Business Combinations
HK-Int 2	The Appropriate Policies for Hotel Properties
HK-Int 3	Pre-completion Contracts for the Sale of Development Properties
HK-Int 4	Leases – Determination of the Length of Lease Term in respect of Hong Kong Land Leases

(i) Presentation of Financial Statements

HKAS 1 has affected the presentation of minority interests, share of net after-tax results of jointly controlled entities, associated companies and other disclosures.

2 Changes in accounting policies (continued)

(ii) Hotel properties

The adoption of HKAS 16 and HK-Int 2 has resulted in a change in the accounting policy for the Group's hotel properties, which are now stated at cost less accumulated depreciation and impairment loss. In prior years, hotel properties were stated at valuation and were not depreciated.

Depreciation is calculated to write off the carrying value of the assets on a straight line basis over the shorter of the unexpired period of the land lease and the anticipated remaining useful lives of the assets. The useful lives which have been adopted are summarised as follows:

Hotel building	Shorter of 50 years or the remaining lease period of the land on which the hotel building is located
Plant and machinery	10 years
Furniture, fixtures and equipment	5 years
Computer equipment	3 ¹ / ₃ years

No depreciation is provided for freehold land.

(iii) Leasehold land in Hong Kong

The adoption of revised HKAS 17 and HK-Int 4 has resulted in a change in the accounting policy relating to the reclassification of leasehold land to prepaid operating leases. The up-front prepayments made for the leasehold land are expensed in the profit and loss account on a straight-line basis over the period of the lease or where there is impairment, the impairment is expensed in the profit and loss account. In prior years, the leasehold land was accounted for at cost.

(iv) Goodwill

The adoption of HKAS 36, HKAS 38 and HKFRS 3 results in a change in the accounting policy for goodwill. The Group ceased amortisation of goodwill from 1st April 2005; accumulated amortisation as at 31st March 2005 has been eliminated with a corresponding decrease in the cost of goodwill and from the year ending 31st March 2006 onwards, goodwill is tested annually for impairment, as well as when there is indication of impairment.

(v) Financial instruments

The adoption of HKASs 32 and 39 has resulted in a change in the classification of financial assets at fair value through profit and loss. It has also resulted in the recognition of derivative financial instruments at fair value and the change in the recognition and measurement of hedging activities.

Notes to the Interim Consolidated Accounts

2 Changes in accounting policies (continued)

(vi) Investment properties

The adoption of revised HKAS 40 has resulted in a change in the accounting policy in respect of which the changes in fair values are recorded in the profit and loss account as part of other income. In prior years, the changes in fair value were credited or charged to revaluation reserve.

The adoption of revised HKAS-Int 21 has resulted in a change in the accounting policy relating to the measurement of deferred tax liabilities arising from the revaluation of investment properties. Such deferred tax liabilities are measured on the basis of tax consequences that would follow from recovery of the carrying amount of that asset through use.

(vii) Share options

The adoption of HKFRS 2 has resulted in a change in the accounting policy for share-based payments. The Group now expenses the cost of share options in the profit and loss account whereas no cost was recognised in the past.

(viii) Pre-completion sale of development properties

The adoption of HK-Int 3 has resulted in a change in the accounting policy for the revenue recognition of pre-completion sale of development properties. The stage of completion method would no longer be used to recognise revenue from pre-completion sale of development properties and revenue is now recognised upon completion of those properties.

All changes in the accounting policies have been made in accordance with the transition provisions in the respective standards. All the new/revised standards adopted by the Group require retrospective application other than those stated below:

- (a) HKAS 39 – the adjustments to recognise all derivatives at fair value and to remeasure those financial assets or financial liabilities are adjusted to the opening balance of the revenue reserve at 1st April 2005;
- (b) HKFRS 3 and HK-Int 3 – prospectively after the adoption date.

The adoption of new/revised HKASs 2, 7, 8, 10, 21, 23, 24, 27, 28, 31 and HKAS-Int 15 did not result in substantial changes to the Group's accounting policies.

4 Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest risk and price risk), credit risk, liquidity risk and cash flow interest-rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures.

5 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year include those related to investment properties, impairment of assets and income taxes.

6 Turnover and segment information

The Group is principally engaged in property development and investment, hotel, travel agency and catering operations. Turnover comprises gross revenues from property sales, property leasing, hotel and travel agency, management services, investment and interest income.

Notes to the Interim Consolidated Accounts

6 Turnover and segment information (continued)

Primary reporting format – business segments

The Group is organised into three main business segments, comprising property sales, property leasing, hotel and travel. There is no other significant identifiable separate business segment. Segment revenue from external customers is after elimination of inter-segment revenues. In accordance with the Group's internal financial reporting and operating activities, the primary reporting is by business segments and the secondary reporting is by geographical segments.

On 7th January 2002, Asia Standard International Capital Limited ("ASICL"), a wholly owned subsidiary of the Company, issued HK\$290,000,000 convertible bonds to Westrata Investment Limited ("Westrata"), a substantial shareholder of the Company. The bonds bear interest at 7% per annum payable semi-annually in arrears and are guaranteed by the Company. In March 2003, the bond had been transferred from Westrata to Grosvenor Limited ("Grosvenor"), an indirect subsidiary of Grosvenor Group Limited.

The bondholder has the option to convert the bonds into fully paid shares of HK\$0.01 each of the Company at a conversion price of HK\$0.44 per share, subject to adjustment, at any time between 7th January 2002 and 7th January 2007. ASICL may purchase all or part of the bonds at any time on or after 7th January 2002, subject to certain conditions, together with accrued interest. Unless previously converted or purchased, the bonds will be redeemed on 7th January 2007 at a redemption price equal to 118.3% of the principal amount together with accrued interest.

On 22nd August 2005, ASICL repurchased convertible bonds which has a principal amount of HK\$50,000,000 with accrued interest.

Notes to the Interim Consolidated Accounts

20 Convertible bonds (continued)

The fair value of the liability component and the equity conversion component were determined at issuance of the bonds. The fair value of the liability component, included in long term borrowing, was calculated using a market interest rate for an equivalent non-convertible bond. The residual amount, representing the value of the equity conversion component was determined to be immaterial.

Provision of HK\$30,823,000 (31st March 2005 restated: HK\$31,414,000) for the premium payable has been made in the accounts so as to provide a constant periodic rate of charge to the profit and loss account over the term of the bonds.
